Professional Summary

Final-year B.Tech student in Computer Science Engineering specializing in Artificial Intelligence and Machine Learning, with strong skills in Java, Python, machine learning, data structures, and software development. Experienced in building intelligent applications, machine learning solutions, and technology-driven products with demonstrated algorithmic problem-solving and applied project experience.

Technical Skills

Languages: Java, Python, C

Web: HTML, CSS, JavaScript

Concepts: DSA, Algorithms, OOP, Machine Learning

Database: SQL, MongoDB

ML Tools: Scikit-learn, Pandas, Matplotlib

Core CS: Operating Systems, DBMS, Computer Networks

Education

Bachelor of Technology – Computer Science Engineering (AI & ML) **2023 – 2027**
CMR Institute of Technology – Hyderabad **CGPA: 8.25**

Intermediate (MPC) **2021 – 2023**
Sri Chaitanya Junior College **Score: 79.3%**

Secondary School Certificate (SSC)
St. Pius X High School **CGPA: 10**

Projects

Code Pulse *Python, Analytics*

- Developed a coding assessment platform for evaluating programming performance through automated analysis.
- Implemented automated code evaluation, scoring workflows, and performance analytics.
- Designed a structured assessment workflow to generate developer-focused insights.

Spam Detection System *Python, Scikit-learn, NLP*

- Developed a machine learning text-classification system for identifying spam messages.
- Applied NLP preprocessing and feature extraction techniques to transform text into machine-learning features.
- Implemented a classification pipeline for automated spam detection.

NourishNet *HTML, CSS, SQL*

- Built a food redistribution coordination platform connecting donors and receivers to reduce food waste.
- Implemented donor management and receiver coordination workflows.
- Structured database operations for efficient food matching and management.

Certifications

- **Google Cloud:** Certified Associate Cloud Engineer; Certified Generative AI Leader
- **Cisco Networking Academy:** Introduction to Networks; Switching, Routing & Wireless Essentials; Enterprise Networking, Security & Automation; Packet Tracer
- **Infosys Springboard:** Java Foundation; Cloud Computing; Generative AI; DBMS; NoSQL Databases
- **Oracle:** OCI 2025 Certified AI Foundations Associate
- **TATA Forage:** GenAI Powered Data Analytics Job Simulation
- **CipherSchools:** Cloud Computing Masterclass

Achievements & Hackathons

- **2nd Place – SummerSaaS AI Hackathon 2026:** Scored **238 points in Module 1**, advanced to **Module 2 at BITS Pilani Hyderabad** among **3,800+ participants**, progressed to **Module 3**, and secured **Overall 2nd Place**.
- **Selected for Infosys Springboard Internship** in recognition of performance and participation.
- **IBM SkillsBuild AI + Sustainability Internship:** Successfully completed the internship program.
- Participated in **CMRIT Glitch 24-Hour Hackathon**.
- Participated in **GDG TechSprint Hackathon 2026**.
- Participated in **Vynedam Talent Hunt 2K26**, a 36-hour national hackathon.
- Earned the **LeetCode 50 Days Badge** for consistent problem solving.

Leadership & Activities

- **NSS Volunteer** – Participated in community service, student engagement, cleanliness initiatives, and social responsibility activities.
- Participated in Independence Day activities, NSS orientation, orphanage visits, and Swachh Bharat Abhiyan.
